

Front of Yonge Launches a New Initiative to Connect Community with Local Trails This Season

FOR IMMEDIATE RELEASE – May 12, 2026

MALLORYTOWN, ON – Front of Yonge Township (FOY), is excited to announce the launch of a new six-month initiative designed to help residents and visitors discover, explore, and connect with local trails.

Made possible through funding from the Ontario Trillium Foundation, this project will bring together outdoor enthusiasts, community members, and visitors to celebrate the natural spaces that make our region unique. The initiative will feature a range of activities, resources, and opportunities aimed at making local trails more accessible, engaging, and well-known.

While details are still being finalized, the project will include curated trail information, community events, and interactive experiences that encourage people of all ages and abilities to get outside and explore. From guided walks to educational content and digital resources, the initiative will evolve over the coming months to reflect community interests and seasonal opportunities.

“This project is about more than just trails; it’s about connection,” said Mayor Haley. “We want to help people build a deeper relationship with the places around them, whether they’re longtime residents or first-time visitors.”

The project will roll out in phases over the next few months, with new content, events, and updates shared regularly.

Community members are encouraged to visit <https://mallorytown.ca/oak-ridge-community-trail/> and follow us on Facebook to stay informed as new details are announced.
