3. Updating of our WDS recycling rules
Discussion of the rules regarding recycling which will be put out to the public.
4. Discussion of WDS Concepts/Recommendations

Concept 1

The primary issue is a lack of access to the brush pile, appliance drop off and the construction pile.

The flow of traffic through the site is less fluid than it could be.

Concept 2

Recommendations:

- * the paper bin and electronic bin be placed with the other bins so that all drop off of waste material is in one location
- * the paper bin is placed at either end of the row of bins
- * that there be 2 off loading lanes and 1 drive through lane to facilitate a smooth flow of traffic

Keep in mind that this committee is looking at these plans from a recycling perspective and that it is Phase 1 of the entire plan.

Carson moved, Sean seconded that the Council liaisons have permission to go forward and present the EAC's preferred option and recommendations to Council.

5. Marianne has written a letter to Tim Hortons asking for donations to help us with Community Clean Up Day.

Motion to adjourn.
